RETURN RECEIPT REQUESTED

The Honorable Gordon Dove  
Chairman  
House Natural Resources and Environment Committee  
Post Office Box 44486  
Baton Rouge, LA 70804

Re: Annual Recycling Report

Dear Representative Dove,

L.R.S. 30:2413 requires that the Department of Environmental Quality report to the House Natural Resources and Environment Committee its findings and conclusions on the status of resource recovery and recycling programs in Louisiana parishes and municipalities.

Attached, please find the Department's 2011 report. Should you have any questions, please contact Mr. Dutch Donlon, Waste Permits Administrator, at (225) 219-3386, or myself at (225) 219-3180.

Sincerely,

A handwritten signature in cursive script, appearing to read "S. Phillips".

Sam Phillips  
Assistant Secretary

Attachment: LDEQ 2011 Recycling Report

Report to the Natural Resources and Environment Committee  
and  
to the Senate Committee on Environmental Quality

Summary of 2011 Annual Recycling Reports  
Tendered by the Department of Environmental Quality  
December 2012

L.R.S. 30:2413 requires that the Department of Environmental Quality report to the House Committee on Environment and to the Senate Committee on Environmental Quality data on resources and recycling programs operated by parishes and municipalities within the State of Louisiana.

On or about August 1, 2012, the Department of Environmental Quality recycling staff requested of all parish solid waste planners their annual recycling reports for the year 2011. As a result of that invitation and other contacts, the following summary has been developed.

Solid waste typically generated by households, businesses, government facilities, and schools is managed by municipalities. This waste includes non-bulky waste, such as, but not limited to corrugated cardboard, newsprint, office and mixed papers, food waste, plastics, glass, metals and textiles as well as bulky waste, such as but not limited to tires, appliances, furniture, construction/demolition debris, woodwaste and yard waste.

Municipalities voluntarily submit Annual Recycling Reports. Some local governments have been diligent and consistent in their reports. Unfortunately many municipalities do no report.

This report does not convey a precise measurement. It simply reflects the data voluntarily submitted. Following, is a summary of the 2011 Annual Recycling Reports submitted:

33 entities have tendered reports of their activities, 5 of which reported no recycling activities in their parish.

2,190,078 residents are represented by the reports.

Annual waste reduction ranged from .11% to 45%.

7 entities offer curbside recycling collection services.

26 entities provide drop-off recycling collection sites.

12 entities have household hazardous waste collection events.

## 2011 REPORTED RECYCLING SUMMARY

RECYCLING ACTIVITY	NUMBER OF ENTITIES REPORTING ACTIVITY	TONS RECYCLED
ALUMINUM	11	2,377.43
APPLIANCES (White Goods)	10	1,464.99
